Re: Reference for Denette Dunn

Denette Dunn has mentored my involvement in the Arizona Recycling Alliance and we now work together on the Board as well as on other environmental consulting opportunities. She is extremely knowledgeable and is incredibly creative and resourceful.

Denette is a can-do person! Her ability to do hands-on problem-solving with clients and constituents is impressive. She took it upon herself to start up the legislative affairs committee for the Arizona Recycling Coalition and was able to quickly reach out to legislators and get their attention.

I look forward to continuing to do business with Denette as we find ways for environmental sustainability to be a driver as our economy recovers .

Sincerely,
